MEMORANDUM FOR: Deputy Chief, Logistics Services Division/OL

FROM:

  
Chief, Headquarters Engineering Branch  
RECD/OL

SUBJECT: Access Gate, Athletic Field No. 4

REFERENCE: Memo for C/LSD/OL fr DC/B&SD/OP, subject  
as above, dtd 25 June 81

1. The reference memorandum describes accurately the current condition of the card-activated electric gate. The mechanism that opens the gate has recently been less than reliable for a variety of reasons.

2. The present method of using a chain and lock and having the key issued to a game coordinator or umpire is probably the best way to service this gate in view of past experience. The locking arrangement may involve some short-term inconvenience for those who would have to wait at the gate until the "key" person arrives, but this is relatively insignificant compared to a malfunctioning card-opening system which could cause the sporting event to be postponed.

MEMORANDUM FOR: Chief, Logistics Services Division/OL

STAT

FROM :   
Deputy Chief, Benefits and Services Division/OP

SUBJECT : Access Gate -- Field #4

1. The gate to our athletic complex is a limited access hydraulic system. Entry to the area is by access card method similar to the badge system. An electric eye beam opens the gate for exit.

2. At present, the system is inoperable and has been secured by a lock and chain to prevent entry of unauthorized personnel.

3. Prior to this year the system has worked well. However, this year several people have used the wrong procedure in exiting, which has caused the power to be turned off after the gate is locked. A bolt was installed by logistics to prevent this from happening again. However, some person or persons unknown have removed this bolt. In addition, the striker latch to the black box has been removed and is now bolted to the inside of the gate.

4. It is requested that you authorize a member of your Division to perform the necessary repairs to the gate as indicated in the above paragraph.

A CONTRACT for professional design of the 77-acre Langley Forest Park has been approved by the Fairfax County Park Authority. Arthur Heard Engineers will do the planning for \$22,194. The park is on the north side of Georgetown Pike (Route 193,) adjoining Central Intelligence Agency, between Chain Bridge Road, (just off the sketch at the left,) and Dolley Madison Boulevard (Route 123,) (just off the sketch at the right). The tract is part of 230 acres that was transferred to the National Park Service on August 16, 1971, in a ceremony with Mrs. Pat Nixon, wife of then president Richard Nixon, as principal speaker.
